

Angular JS PatternFly

# Community Meeting

August 2017

PATTERNFLY

# Agenda

- Announcements
- Updates
- Contributions
- Requests
- Discussion
- Community

# Announcements

- Semantic Release Process
  - [New Commit Format](#)
- GitHub Issues - Priority Labels
- Angular PatternFly 4.3 was released

# Updates

- [Common Pagination Controls](#) - Dave T
- [Table View with Pagination](#) - Dave T
- [Table View Custom Cells \(allow icons, links, truncation\)](#) - Dave T
- [New Filter Panel](#) - Dave T
- [Toolbar Filter Updates](#) - Allen W
- [Notification Drawer Updates](#) - Jeff P
- [Wizard Updates](#) - Jeff P
- [Allow Actions in Empty States \(list view, card view, table view\)](#) - R. Wood

# Contributions

- New AngularJS components
  - Include a graphic so designers and developers can review
  - Follow the new [PR Template](#) checklist
- GitHub Issues
  - Priority labels will be added to issues as they come in
  - The PatternFly team will self-assign and work on issues based on priority
  - Unassigned issues are open to anyone in the community
  - Please self-assign if you are working on an issue
- Review the [Contribution Requirements](#) and [PF Code Guide](#) to learn more

# Requests

- Existing Issues on GitHub: [Enhancements](#) and [Bugs](#)
  - Do you have concerns with the current prioritization?
  - Are there bugs or enhancement requests that are blocking you?
- Forward Looking Requests
  - Are there existing PatternFly patterns you would like to see in Angular PatternFly that are missing today?
  - Are there other components you're looking for or hoping to get into PatternFly?
  - Are there components you have in your project that should be considered for future contributions?

# Discussion

- Community Survey
  - How long do you expect to stay on Angular PatternFly 3.x?
  - Do you plan to move to Angular 4?
    - Do you plan to use PatternFly-NG?
    - How soon would you be moving?
    - How long do you expect to support existing products using Angular PatternFly?
  - What do you want to get out of future community meetings?
  - General Comments/ Questions
- Security and Dependency Updates

# Discussion

## CSS Review - Andres Galante

- Review PatternFly 3 CSS
- Discuss new architecture and plan for the future

# Community

- GitHub Repository - <https://github.com/patternfly/angular-patternfly>
- Community Meetings - <http://www.patternfly.org/community/monthly-community-meeting/>
- [#angular-patternfly](#) channel on Slack - <https://slack.patternfly.org/>
- Mailing List - <https://www.redhat.com/mailman/listinfo/patternfly-angular>

4. Common Pagination Controls

# Appendix B - Updates

New Filter Panel

Demo

Filter ▾ 2 of 9 Items Active filters: Keyword: Foo X Category One: Value 1 X Value 2 X Category Two: Value 2 X Value 3 X

Filter by Keyword

Category One

- ☒ Value 1
- ☒ Value 2
- ☐ Value 3

Category Two

- ☐ Value 1
- ☒ Value 2
- ☒ Value 3

Keyword

Category One

Value 2

Value 1

Category Two

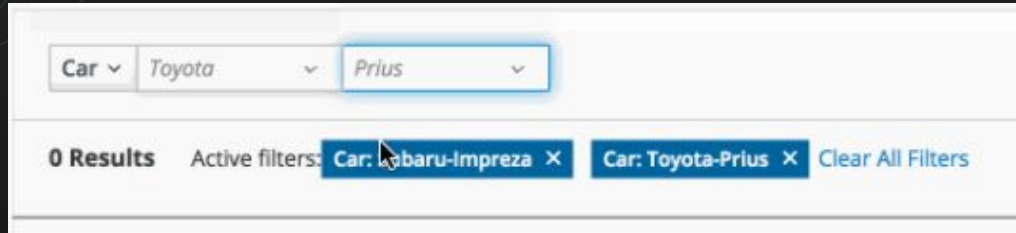

Value 2

Value 3

Diagram illustrating the filter logic:

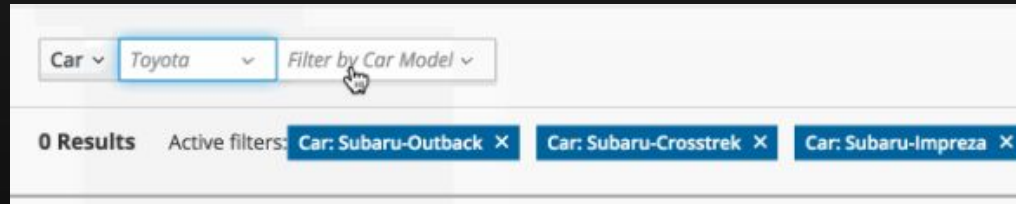

- Red arrows point from the **AND** label to the **Keyword: Foo**, **Category One: Value 1**, and **Category Two: Value 2** filters.
- Red arrows point from the **OR** label to the **Value 1** and **Value 2** filters under **Category One**.
- Red arrows point from the **OR** label to the **Value 2** and **Value 3** filters under **Category Two**.

# Appendix C - Updates

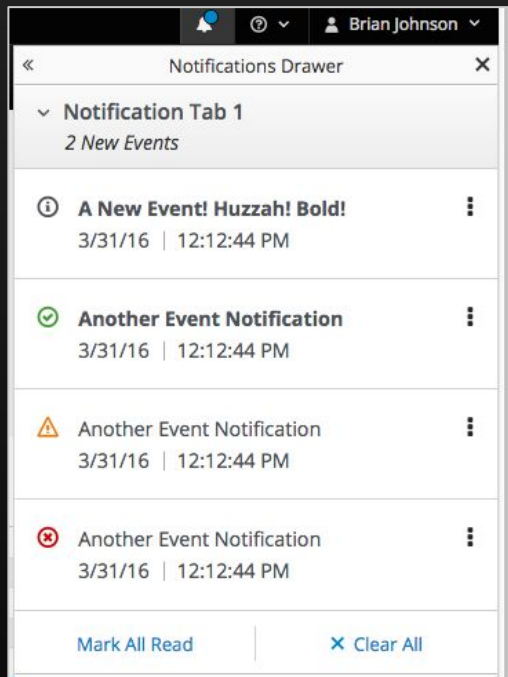

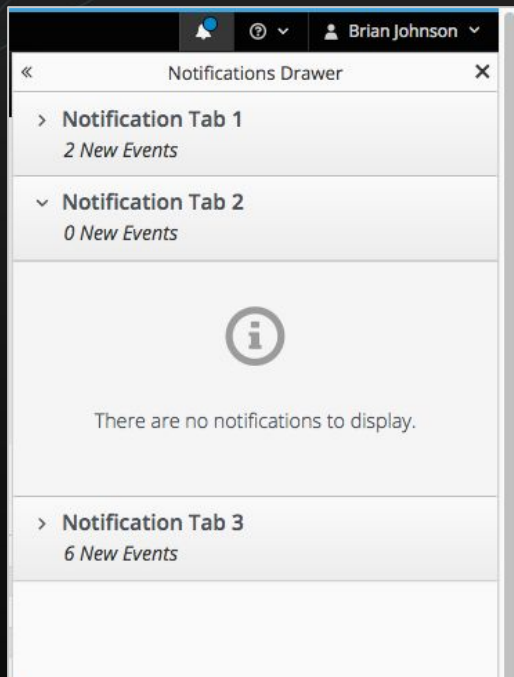

## Toolbar Filter Updates:

- Allows filtering by category-value pairs (ex: tags)
- Allows configurable settings for duplicate category inputs.
- Includes option to ban duplicates (overwrite existing)
- Includes option to allow duplicates (add new filter chip)

# Appendix D - Updates

## Notification Drawer Updates:

- Adding an Empty State
- Adding a Close Button
- Handles Long Notifications
- Allows a Single Accordion
- Documentation Updates
