

Angular JS PatternFly

Community Meeting

November 2017

PATTERNFLY

Agenda

- Announcements
- Updates
- Requests
- Discussion
- Contributions
- Community

Announcements

- Releases covered here include versions 4.4.1 - 4.11.0
- GitHub [Project Board](#) was created per suggestions from the community
- Angular-PF community [Survey Results](#) posted

Updates

- [Utilization donut chart component](#) - cdcabrera
- [Pagination controls for list and card views](#) - dtaylor113
- [Filter options for inline view, results count, items label](#) - jeff-phillips-18
- [Support for wizard at mobile resolutions](#) - jeff-phillips-18
- [Alternate label options for trend cards and charts](#) - amarie401
- [Badges for secondary and tertiary navigation](#) - amarie401
- [Loading state for cards](#) - amarie401

Updates

- [Unique filter option for the toolbar](#) - akieling
- [Examples for the Git Commit Guidelines](#) - benjaminapetersen
- [Custom tooltips on utilization bar charts](#) - AllenBW
- [Info status cards and tests](#) - AllenBW

Requests

- Do you have any high priority enhancement requests?
- Are there any bugs currently blocking you?
- Forward Looking Requests
 - Are there existing PatternFly patterns you would like to see in Angular PatternFly that are missing today?
 - Are there other components you're looking for or hoping to get into PatternFly?
 - Are there components you have in your project that should be considered for future contributions?

Requests

- GitHub issues are now organized on the [Project Board](#) to:
 - Improve the prioritization of bugs and enhancements
 - Provide clarity on issues the PatternFly team is currently working on
 - Improve transparency for community involvement

The screenshot displays the Angular PatternFly Project Board on GitHub. The top navigation bar includes links for Code, Issues (36), Pull requests (2), Projects (1), Wiki, Insights, and Settings. The board is organized into five columns: Backlog (23), Needs CSS/ Design/ or Research (4), Next To Do (4), In Progress (3), and PR in Review (1). Each column contains a list of issues with their titles, IDs, openers, and priority levels. Issues are color-coded by type: bug (red), enhancement (blue), and question (purple). Some issues also have labels for design or enhancement areas like 'pattern enhan...' or 'pf-design'.

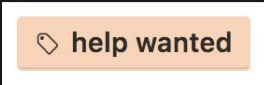

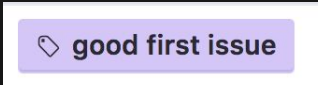

Column	Issue Title	ID	Opener	Priority	Type	Labels
Backlog (23)	pfPagination: remove less overrides	#669	dtaylor113	2	Bug	
	pfTableView: error when items array is empty	#667	akieling			
	Access to c3 basic function	#237	carlosthe19916		Question	
Needs CSS/ Design/ or Research (4)	pfFilter Enhancements	#472	dtaylor113	2	Enhancement	pattern enhan..., pf-design
	Notification drawer should close when the user clicks outside of the drawer	#537	benjaminapetersen	3	Enhancement	pattern enhan...
Next To Do (4)	Do not set id="title" in empty state component	#575	jeff-phillips-18	2	Bug	
	Notification drawer: Actions Menus should not be cut off by group boundary	#614	dtaylor113	3	Bug	
In Progress (3)	No CDN for angular-patternfly?	#596	himdel	2	Enhancement	
	pfTableView: border style not in line with PatternFly	#663	akieling			
PR in Review (1)	Topology graph bindings/attributes revisit	#631	skateman	3	Enhancement	
	pfFilterPanel: responsiveness and accesibility	#600	dtaylor113	2	Bug	

Discussion

- Sass Support
 - Angular-Patternfly 3.x - Update to Patternfly latest to gain Sass support
 - Angular-Patternfly 4.x - Include Less and Sass files
- Security and Dependency Updates
 - Added NSP Badge (PR [#655](#))
 - Updated angularjs-datatables (PR [#611](#))

Contributions

- Follow the [PR Template](#) checklist for new AngularJS components
- GitHub Issues
 - Unassigned issues in the NextToDo column are open to the community
 - New labels were added:  
 - Please request to be assigned if you are working on an issue and cannot self-assign (we can grant you permissions as well)
- Review the [Contribution Requirements](#) and [PF Code Guide](#) to learn more

Appendix

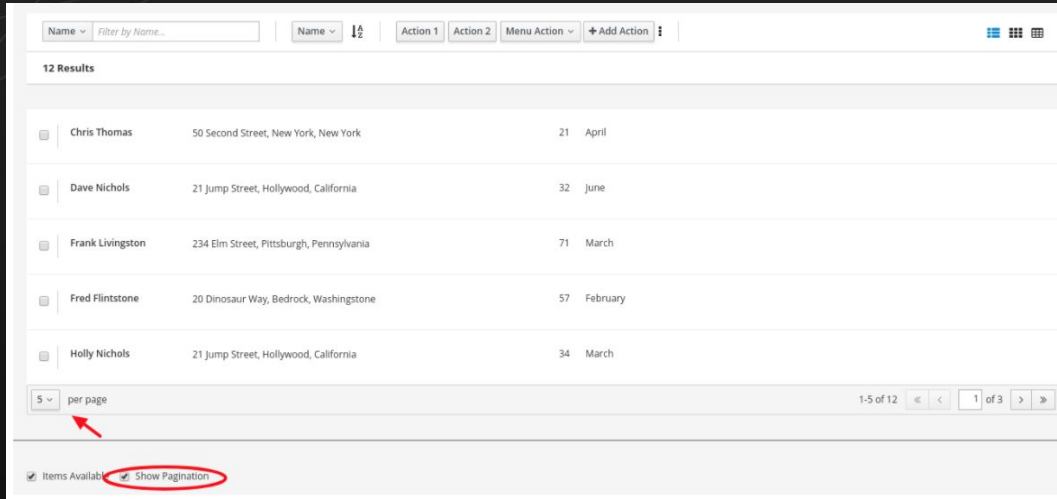

Appendix A - Updates

- Utilization donut chart component has new options for label placement
- Component can be used outside the context of a card

Appendix B - Updates

The screenshot displays a web application interface with a list of 12 results. The interface includes a search bar, a toolbar with action buttons, and a list view. The list contains five entries, each with a checkbox, a name, an address, and a date. At the bottom, there are pagination controls and a checkbox for 'Show Pagination'.

Name	Address	Date
Chris Thomas	50 Second Street, New York, New York	21 April
Dave Nichols	21 Jump Street, Hollywood, California	32 June
Frank Livingston	234 Elm Street, Pittsburgh, Pennsylvania	71 March
Fred Flintstone	20 Dinosaur Way, Bedrock, Washington	57 February
Holly Nichols	21 Jump Street, Hollywood, California	34 March

5 per page 1-5 of 12 1 of 3

☒ Items Available ☒ Show Pagination

- Pagination controls have been added to the list view, card view, and toolbar patterns

Appendix C - Updates

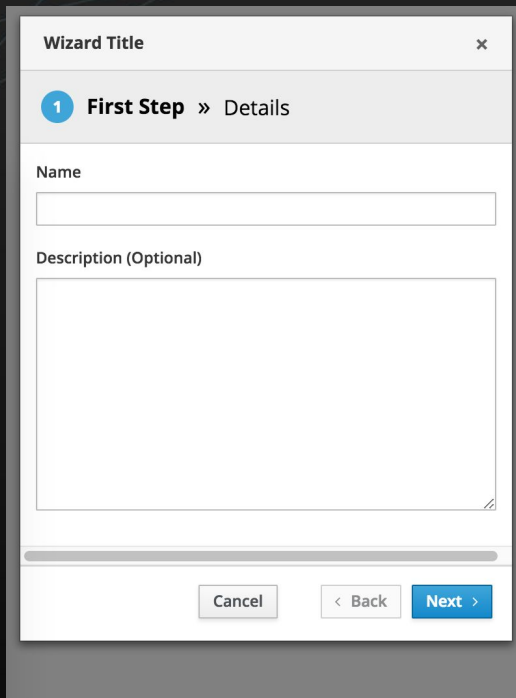

Demo

Name ▾ *Filter by Name* **1 of 5 Results** Active Filters: Birth Month: January ✕ Name: pat ✕ [Clear All Filters](#)

☒ Inline results ☒ Show total count in results

- New filter layout option allow results to be presented inline
- New filter layout option allow total count with or without a label

Appendix D - Updates
